📍 Lagos, Nigeria

A Full-Stack developer with over five years of real-world experience building web applications that match client needs. I am confident with the skills and talent that I had earned with my past working experience across different industries.
I have developed several web applications from scratch, at the same time, I used to work on clients existing projects as I have outstanding debugging skills.
I love my work, and that helps me deliver in a much professional way.

WORK EXPERIENCES
